

Personal Handling Devices

Thinking Products for Thinking People

***Add valuable space and flexibility to your work area with Valley Craft's exclusive line of Personal Handling Devices. A heavy-duty necessity in any assembly, parts production, office and even home work area.***

# Quick-Pick™ A-Frame

pick, store, and distribute parts and supplies with Quick-Pick™ A-Frame Shelf Trucks. Pick parts in order with the single-sided model, or pick and store parts and supplies with the high-capacity, double-sided model.

**Each truck features 6"x2" casters, two rigid and two swivel. Rugged all-welded construction for years of continuous use. Single-sided truck capacity is 1,500 lbs. Double sided truck is 2,500 lbs.**

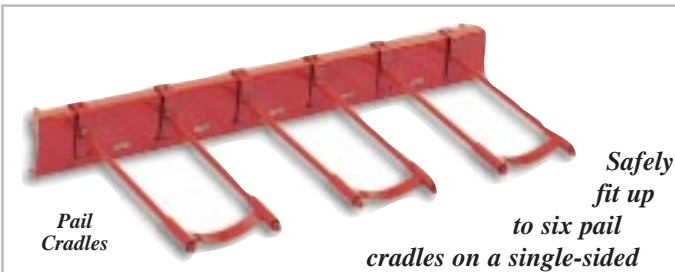

*Single-sided A-frame with pail cradles.*

*Single-sided A-frame with open- and close-lip trays.*

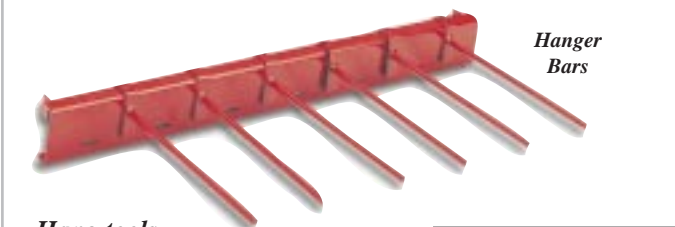

*Double-sided A-frame with open- and close-lip trays and hanger bar with spindles.*

*Pail Cradles*

*Safely fit up to six pail cradles on a single-sided A-Frame.*

Cradles rest between two spindles and are spaced safely across the entire bar. Especially useful for handling and storing 5-gallon, covered, plastic pails. Each cradle has a carrying capacity of 50 lbs.

*Hanger Bars*

Hang tools and wire spools on rugged formed and welded hanger bar. Each hanger bar will hold up to 12 spindles and 150 lbs. Spindle rods are 15" long and 1/2" in diameter. When 12 spindles are installed, measurement between each spindle is 3 1/2". Max center to center width between spindles is 32 1/2".

Accessorize the Quick-Pick™ A-Frame with a closed-lip tray for smaller parts or the open-front tray for oversized items. For cables, spools and pails, choose the hanging spindle rack with rods or pail cradles. Trays and spindle hanger bars can be adjusted up or down at 1 3/4" increments. Hook-on trays are all welded and constructed of 16-gauge material. Double steel, reinforced sides give each tray a hefty 150-lb. capacity.

*Close-lipped Tray*

Trays come in four styles to suit your application.

Choose from either a 9" or 15" depth with an open or closed front. Closed front models have a 3" lip; open front models have a 1" reverse hem for added strength. 15" deep trays are not for use with the single sided version, model 1812.

*Flush Front Tray*

Model No.	Description	Dimensions WxL	Shipping Weight
<b>Shelving</b>

# Quick-Pick™ Cage Trucks

Pick and distribute valuable parts with this totally enclosed security truck. Quality craftsmanship and expert engineering make storage, transport and use of supplies and large, bulky machinery a safe and simple task. The Quick-Pick™ Cage Truck's narrow design and superior balance make it easy to maneuver through congested areas whether it's full or empty.

An all-welded, heavy angle frame construction allows users to easily secure and transport heavy equipment, large boxed items and bulky materials. The totally enclosed see-through design and locking doors allow for optimal safety and security and superior ventilation.

Lockable security handle.

Cage trucks are constructed of 18-gauge steel with a protective red enamel finish and have a carrying capacity of 2000 lbs. Cage truck doors open on full-length piano hinges and close together with a 2-point locking system. Attach padlock to handle for added security. (Padlock not included.) Units roll easily on 8" casters, two swivel and two rigid.

Model No.	Dimensions HxW	Shipping Weight
1808	24" x 48"	330 lbs
1809	24" x 60"	340 lbs
1810	30" x 48"	350 lbs
1811	30" x 60"	355 lbs

# Personal Tote Stands

Add valuable space to your work area with Valley Craft's quality crafted Portable and Stationary Tote Stands, and give yourself the flexibility of moving product to and from work areas. A heavy-duty necessity in any assembly or parts production area, these PHDs™ allow you to tilt the parts bin for easy and convenient access.

Our stands accommodate any bin or tote no smaller than 15"W x 8 1/2"H. Bins are ergonomically positioned at a 45° angle and a 32" height for ease in part selection. The Portable Tote Stands have four 2" swivel casters for dependable mobility, and a 16"x18" bottom tray for extra rage.

Total height of portable stand is 43" and total height of stationary stand is 40". Use these easily accessed units on either side of the operator for efficient use of maximum work space.

Constructed of 16-gauge steel for solid support, these durable tote stands handle materials weighing up to 200 lbs. Stationary Tote Stands nest for compact storage.

Model No.	Description	Stand Height	Shipping Weight
5991	Stationary Stand	40"	12 lbs.
5992	Portable Stand	43"	13 lbs.

# Personal Shelf Trucks

Personal Shelf Trucks provide flexibility in manufacturing, allowing you to work quickly, and easily set up work areas. Easy maneuverability and a compact size make these trucks useful for everything from order picking and assembly work, to office storage and equipment transport.

**Both 2- and 3-shelf models** are 39½"H x 17½"W x 39"L and have shelves 16½"W x 29"L. Casters have a 5" diameter and are 1" thick. Carts are finished with a light gray enamel.

**Quality engineered and expertly constructed of 18-gauge steel**, the Personal Shelf Truck easily

handles loads up to 500 lbs. Continuous push handles make navigating through tight areas a breeze, while non-slip shelf mats help keep items in place. Four 5" swivel casters (two with brakes) allow operator to position shelf truck tightly next to work area.

*Continuous push handles and non-slip shelf mats make this unit safe and easy to maneuver in almost any area.*

Model No.	Description	Dimensions HxWxD	Shipping Weight
7566	2-shelf model	39½" x 17½" x 39"	51 lbs.
7567	3-shelf model	39½" x 17½" x 39"	64 lbs.

# Personal Tote Trucks

*Gravity-fed personal tote trucks make it safe and simple to transport, stock and store parts and supplies in the office or in the shop area. The unit is perfect for sorting and delivering jobs, and it's narrow design makes it easy to maneuver through tightly congested areas.*

**The personal tote truck** sits at an ergonomically designed 45° angle, so parts and supplies are always within easy reach, and rolls on 5" x 1" hard rubber casters for smooth transport over hard floors and carpeting. The cart stands 43" tall and is 36" in length, and is constructed of 16 ga. 1" round steel tubing for strength and durability.

**These versatile trucks** conveniently handle two rows of three 11½"H x 13"W x 18"D vertically-placed standard-size totes, or two rows of two horizontally-placed standard-size totes.

*Tote truck also accommodates two totes per shelf when placed horizontally.*
