

Viking II™

by Valley Craft Presented by Best Pak Company

A Tough New Generation of Hand Trucks at Affordable Prices

Viking II Hand Trucks offer a variety of frame and handle styles designed to make your workday easier. 8 x 14" shoes are made of solid 10-gauge steel, welded to the frame. We also give you three wheel options, from the economical 8" semi-pneumatic

wheel to the shock-cushioning, fully pneumatic 10" wheel. The OSHA Safety Green enamel finish is baked on to last a long time. All Viking II Trucks are shipped via United Parcel Service.

Continuous Handle Trucks

Versatile design allows you to use them with one hand or two. The frame is a hefty 44"h x 14"w heavy-gauge steel tubing and stair glides make stair climbing easy. 29" x 12" heavy-gauge tubular steel extendible shoe folds down, snaps to frame when not in use.

Continuous Handle-Standard Frame

Model	Wheel Type H x W	Overall	Capacity	Shpg. Wt.
9125	8 x 1.75" semi-pneumatic	44 x 18"	300 lbs.	25 lbs.
9127	10 x 2.75" cushion rubber	44 x 18"	500 lbs.	31 lbs.
9128	10 x 3.5" fully pneumatic	44 x 20 1/2"	500 lbs.	28 lbs.

Continuous Handle-Extendible Shoe

9225	8 x 1.75" semi-pneumatic	44 x 18"	300 lbs.	32 lbs.
9227	10 x 2.75" cushion rubber	44 x 18"	500 lbs.	38 lbs.
9228	10 x 3.5" fully pneumatic	44 x 20 1/2"	500 lbs.	35 lbs.

Twin Handle Trucks

The frame is 44"h x 14"w. Extendible shoe models handle oversized loads up to 200 lbs.

Twin Handle Trucks-Standard Frame

Model	Wheel Type	Overall H X W	Capacity	Shpg. Wt.
9135	8 x 1.75" semi-pneumatic	44 x 18"	300 lbs.	25 lbs.

Twin Handle Trucks-Extendible Shoe

9235	8 x 1.75" semi-pneumatic	44 x 18"	300 lbs.	32 lbs.
9237	10 x 2.75" cushion rubber	44 x 18"	500 lbs.	38 lbs.
9238	10 x 3.5" fully pneumatic	44 x 20 1/2"	500 lbs.	35 lbs.

Choose From Three Wheel/Tire Options

Three wheel/tire options provide easy hand truck operation on any type of surface. Fully pneumatic, adjustable air pressure tires on steel hubs help cushion loads over rough surfaces.

Semi-pneumatic and cushion rubber tires are designed to roll well over most surfaces.

8 x 1.75" semi-pneumatic, offers a cushioned ride. The poly hub wheel features a self-oiling bearing.

10 x 2.75" cushion rubber with poly hub helps you move loads easily over most surfaces.

10 x 3.5" pneumatic wheels have 3.5" wide tires that move easily over rough terrain.
